

No one quite understands market stalls like we do.

We have been building market stalls since May, 1974. The majority of our stalls are manufactured for individual traders whose requirements are as different from one another as the products they sell.

In this brochure you will find our standard range of stalls which are a good starting point when considering how to display and sell your products. You may, however require something a little different, in which case our 30 years of experience is at your disposal if you wish to discuss your ideas with us over the phone or via the internet.

A few practical thoughts may help you along the way; Stalls need to be **strong** and **sturdy** but not too heavy, and they need to be able to withstand rough treatment during transportation and erection. **Simplicity** is always key. Erecting a stall on a cold, dark February morning is made a lot easier and quicker if the design is kept simple by using as few parts as possible.

As you'll see throughout this brochure, we try to manufacture our stalls and accessories to fit these requirements, but the overriding factor is, *will it sell your product?* Display counts for a great deal and should be forefront in your mind when making any decisions about your stall. Make your product look good - consider how you can display and sell it to your best advantage. A good tip is to look to how others do it, not just other market traders, but also high street stores and supermarkets. Don't be afraid to borrow their ideas and mould them around your own requirements keeping in mind **strength, practicality** and **simplicity**.

We're more than happy to discuss ideas with you and can help turn a raw idea into a practical design, so please, get in touch.

Gavin Kenning

FASHION SOLUTIONS

Our range of square section dress rails are renowned for their strength and simplicity having no small parts that can be misplaced. All our rails can be taken apart quickly and easily and pack flat for transportation or storage.

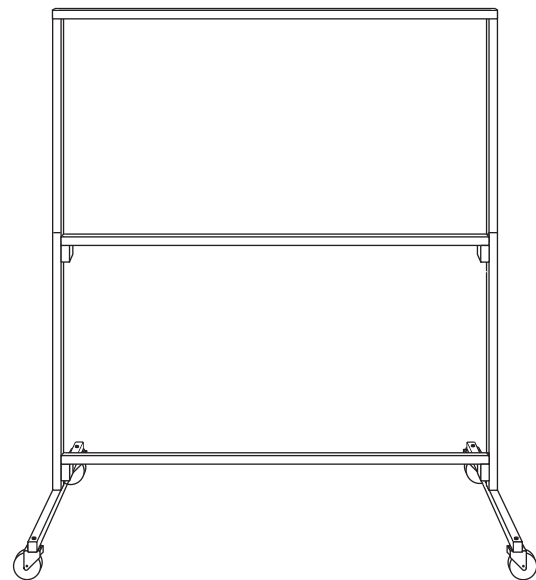

Rails may be used in conjunction with conventional clothes hangers as well as our extensive range of hanger brackets that fit directly onto the square section tubing enabling you to create your own professional and individual clothing displays which can be fronted up to the customer for maximum effect.

All our rails can be supplied with wheels (either standard or heavy duty) or simply as flat bottomed rails.

INCREASE YOUR SELLING SPACE

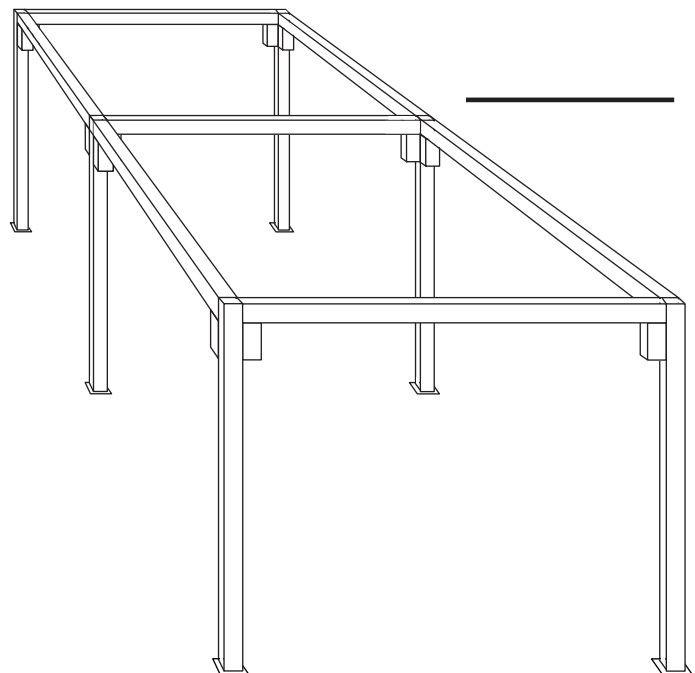

Our range of tough, portable tables are invaluable for additional indoor or outdoor selling space and have the great advantage of totally dismantling and packing into a small space for transportation or storage.

Tables are manufactured from the same steel and employ the same construction techniques as those used in making our renown market stalls.

We can supply table counters which are made from 9mm plywood, see overleaf for details. Alternatively any suitable timber boards may be used.

COMPLIMENT YOUR PRODUCTS WITH OUT STEP DISPLAY STANDS

Our step displays will help to compliment your products bringing items closer to the customer's eye level and enabling more products to be effectively displayed in the same space.

Step displays are a simple, flexible and very rugged solution, manufactured from the same steel and employing the same construction techniques as those used in making our renown market stalls.

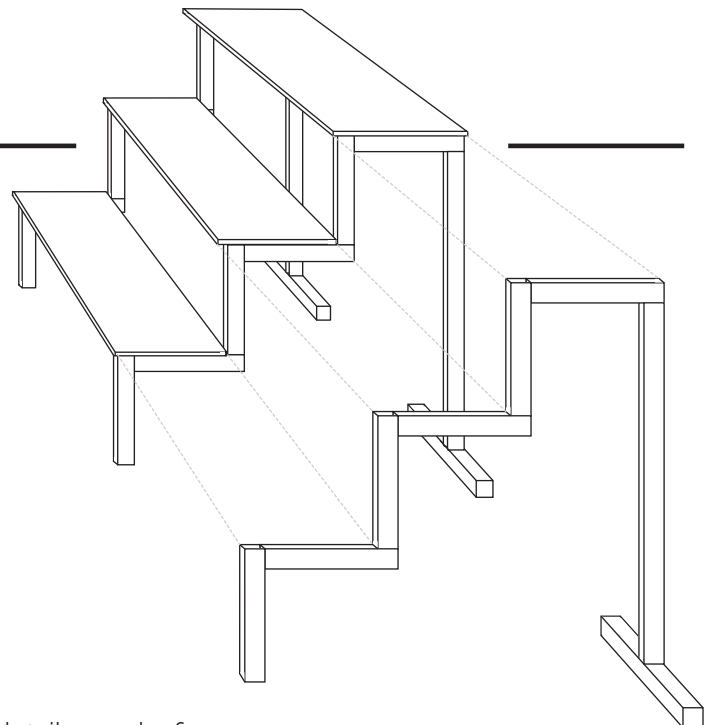

The displays are designed to be flat packed and easily transportable by simply detaching the back leg from the step. They are a stand-alone fabrication that could be used on any market stall, table or flat surface. By spacing the supports further apart the display lengths can be varied providing greater flexibility. Any suitable board can be used to form the steps, this is then usually covered with a cloth or grass matt to form a backdrop for your products.

**◀ 9" x 9" 2 step display****TYPICAL USES**

To display shoes, household items, electrical equipment, books or any medium sized items

▶ 6" x 6" 3 step display**TYPICAL USES**

▶ PRICES

All our prices include 17.5% VAT. Delivery is extra, please contact us for a quote. We reserve the right to amend prices without prior notice.

▶ PLACING YOUR ORDER

You can place your order over the phone by calling our sales team on **01773 607505**.

▶ PAYMENT

We accept all major credit and debit cards, cheques (made payable to Gavin Kenning Engineering, please allow 5 working days to clear) or cash on collection.

▶ DELIVERY

Delivery is via a Next Day service. Due to the varying weights of the products we sell we advise that you to call prior to placing your order to obtain an accurate quote for delivery.

▶ RETURNS

Due to high transportation costs we only accept returns where the product is faulty or wrongly supplied. However, because we value our customers we are always prepared to consider individual cases.

▶ STARTER KITS

All our stalls can be purchased as a starter kit which includes a standard white cover, clips and 9mm plywood counters (where required).

▶ BESPOKE DESIGNS

If the stall you require is not featured in the brochure please contact us to discuss your requirements.

▶ SPARE PARTS

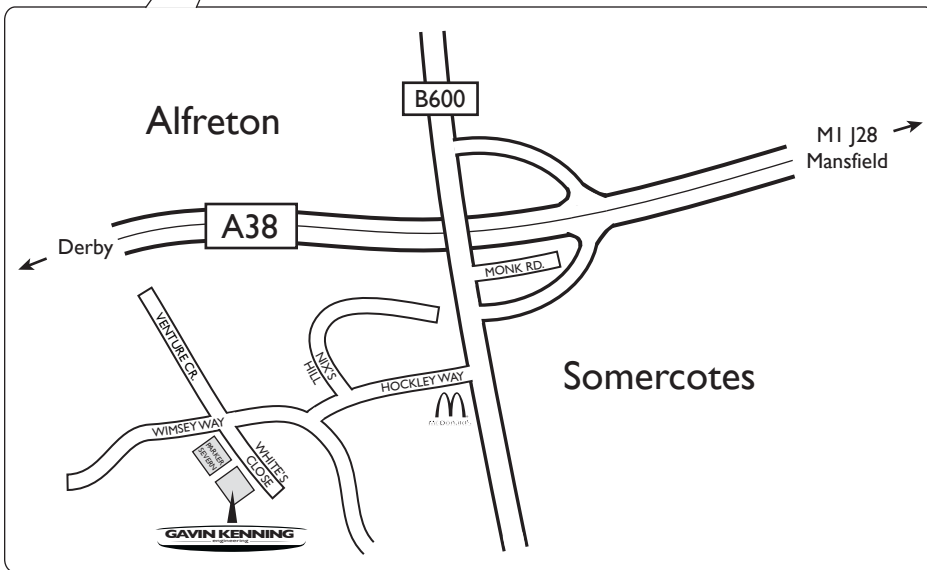

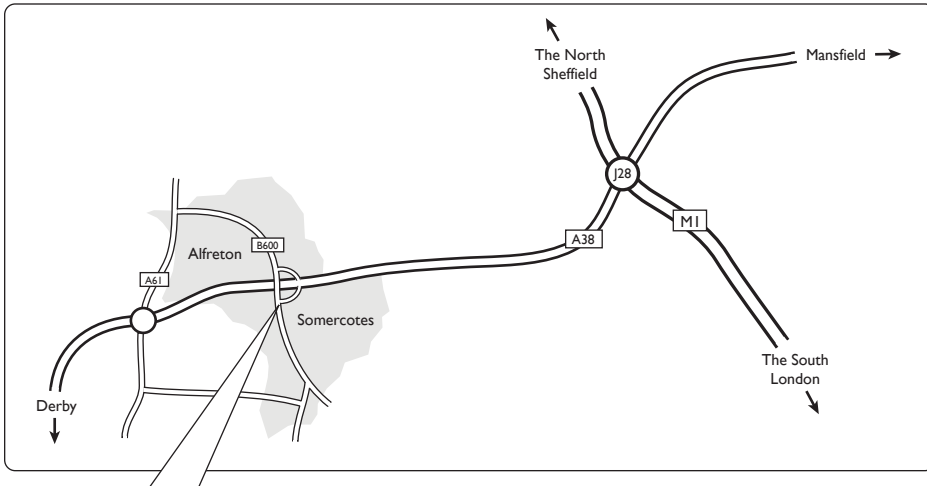

We also supply spare or replacement parts for all market stalls.

▶ MATERIALS WE USE

Our market stalls and accessories are manufactured using 25mm x 25mm (1" x 1") mild steel tube. Counters are made from 9mm plywood.

▶ STALL HIRE

We also hire market stalls to local authorities and organisations. Please contact us for further details.

We're open **Monday to Friday** from **9:00am - 5:00pm** (opening hours may vary around public holidays — view our website for the latest information).

No appointment is necessary. Ample car parking is provided for customers.

Our premises offer disabled facilities.

We are situated in the East Midlands, 5 minutes from junction 28 of the M1, just 30 minutes from Nottingham, less than an hour from Sheffield, Leeds, Leicester and Birmingham and only 2 hours from London.

DIRECTIONS FROM M1

1. From J28 of the M1, follow the A38 westwards for approximately 2.5 miles.
2. Exit at the second junction signposted Somercotes, B600 and Trading Estates.
3. Turn left at the T-junction onto the B600 and take the first right onto Hockley Way (a McDonald's restaurant is situated on the corner).
4. Follow Hockley Way down to another T-junction and turn right onto Wimsey Way.
5. Follow the road around the bend and at the cross-roads turn left onto White's Close.

Gavin Kenning Engineering is the second factory unit on the right, nextdoor to Parker Severn Builders Merchants.

DIRECTIONS FROM A38 EAST

1. From Derby, follow the A38 for approximately 15 miles.
2. Pass under the junction signposted Matlock, Chesterfield and A61 and continue for another half mile before exiting at the junction signposted Somercotes, B600 and Trading Estates.
3. Turn left at the T-junction onto the B600, continue over the A38 and take the first right onto Hockley Way (a McDonald's restaurant is situated on the corner).
4. Follow Hockley Way down to another T-junction and turn right onto Wimsey Way.
5. Follow the road around the bend and at the cross-roads turn left onto White's Close.

Gavin Kenning Engineering is the second factory unit on the right.
